

Welcome Back To School!

- Parents make sure your child's immunizations are up-to-date. Be sure to give your child's school a current immunization record.
- Be sure your child's school has current contact information for you in case of an emergency.
- Reminder, medications should not be brought to school and will not be administered to your child without a signed doctor's order and a completed EISD medication form. Visit your child's school clinic for more information.
